The Four Seasons

Autumn, Winter, Spring & Summer

Key Vocabulary	Definition
Spring	The season, after winter, plants begin to grow and animals come out from hibernation. There is lots of rain
Summer	The warmest season. The days are long because the sun rises earlier and sets later. The weather is sunny
Autumn	The season, after summer, where the days get shorter, crops can be harvested and the leaves begin to fall from the trees.
Winter	The coolest season, trees are often bare and some animals hibernate.
